-:--- I ARRYULLY NOTE THESE POINTS.-1. This easy riding cart has no seat ba s to climb over in getting in or out of the seat. This makes it desirable for all classes of people
2. It is the only eart that can be adjusted to suit the road and the weight of the rider. Five seconds will produce this

The bottom is solid, in preference () slats so commonly used, which protected driver from dust and mud. Where other earts have from 2 to 3 toot springs, the Spiral has 24 foot spring, giving more elasticity than any other

5. It is the lightest draught cart in the market.

It balances perfectly.
It is free from horse motion. A perfect beauty in appearance.

TO HORSEMEN

A Test. - Place 2 or 4 scantlings 8 or 1 feet apart on a road, and then drive o or them as tast as your horse can trot or run. We will guarantee that the rider shall not be moved from the scat, by such a severe test. Try any other cart and watch one result

We guarantee the springs for 5 years. Should they break, we replace them free of charge—also guarantee stafts 13 months. Ask any other manufacturer to give you such a warrantee and see what the will say.

If you are told that other carts have no horse motion, it is only when the horse is standing still, for with such that is entirely avoided with our Spiral Spring cart.

We have this cart with double seat only. Always buy a good article.

A Beautiful Anaglyph Found. Commission Merchant Ticked for Gen. Israel Putnam.

In the office of the Henry Hill Publishing company of Norwich, in a dusty nook, is the big clock that used to tick for Gon. Israel Putnam, and that the bluff revolutionary soldier had to wind nightly with a crooked from key nearly as big and heavy as a wagon wrench. It is seven feet five inches tall, the case is of polished cherry, and the dim, decorated face is bigger than the full moon looks to be. About the dial the woodwork projects in the shape of a miniature squarehouse, with curved, ornamental pieces at the tep, and with pilasters on each side. The clock records the days of the month as well as the daily time. Inside the case a four foot pendulum swings keisurely to a loud sing song mendulum swings kisurely to a loud sing song une, and five pound leaden weights on double cords make the massive machinery revolve.
